

Amendments to the Specification:

Please replace the paragraph beginning at page 15, line 15, with the following redlined paragraph:

In another embodiment shown in Figure 12, a tool 120 is shown formed of a blank sheet ~~122-11~~ of transparent, rigid material having front and back sides 12, 14, respectively, that is used in conjunction with a flexible sheet 17 having a grid 126 of measuring lines formed thereon. The grid 126 may be formed on the front or back sides 19, 21 in the manner described above with respect to Figures 3-6 and 7-10.
